

## Dear Parent

Fluency Tutor for Google is available for home use.

Fluency Tutor is a software tool to support reading fluency.

We're pleased to say that your child can use this at home as well. This means that the software they use in school can now also be used at home for practicing reading fluency.

Fluency Tutor is a tool to help encourage and support readers by enabling them to practice reading aloud. With a simple web-based interface, your child can open up a webpage or Google doc, and record their reading. Reading can be played back and reviewed or sent right to their teacher for feedback in one click.

### [Watch this overview video of Fluency Tutor features](#)

At school, your child is already using Fluency Tutor to practice reading aloud and improve their reading fluency.

If you wish to access Fluency Tutor for your child to read at home, they can do so via the method it was sent to them. Either through Google Classroom or through their student email.

If you have any questions please contact your child's teacher and for general information on Fluency Tutor is available on the [Texthelp website](#).

Together we'll help them reach their potential.
